

## SEMINAR ON UK GAAP FRS 102 SCHEDULED FOR NOVEMBER

**How can company accountants and finance directors make the most of FRS 102 accounting standard? That's the question under the spotlight at a seminar on 1<sup>st</sup> November in Nottingham, sponsored by accountancy firm Page Kirk LLP.**

In the three-hour workshop, which is followed by a light lunch and networking session, participants will learn about presentation and disclosure issues, discuss the impact, and their experiences, on reported profit and net assets and also look to the future in relation to IFRS for leases, revenue recognition and version 2 of FRS 102.

The guest speaker will be industry expert David Potts of Potts Financial Training and the seminar is designed to appeal to everyone from Chief Financial Officers and Financial Directors through to Company Secretaries and Accountants, as well Financial Managers, Controllers and Account Managers.

“These new standards are a significant change for company accountants and finance directors,” observed John Wallis, Senior Audit Partner at Page Kirk. “We thought the seminar would be a good opportunity to explain the working practicalities and problems encountered when implementing the new rules in detail, open up a discussion and bring local finance professionals together for a morning.”

Finance people interested in attending the seminar, which runs from 9.30 am to 12.30 pm, should email: [seminars@pagekirk.co.uk](mailto:seminars@pagekirk.co.uk)
